Dear parents and carers of _____

Safari room change

We would like to inform you of some exciting news regarding your child's nursery room.

From September, our term-time Safari room will be able to move to the room that is currently used by Stepping Stones nursery. This nursery room is located between the school reception classrooms and the school office. This room will be similar to Safari and our other nursery rooms in appearance, resources and set-up. This room benefits from direct access to the fantastic outdoors area which is used by all of our nursery rooms, and is closer to the 3 other nursery rooms and nursery office too.

This room change will also mean that our Safari room will no longer be a dual purpose room that is shared with out of school club, as it will be set up and used only by the nursery. Therefore, nursery children will be able to take greater ownership of their nursery environment.

If you would like to have a look at the September Safari room, we will welcome you to take a look Monday 14th to Friday 18th August between 9 and 10am or 3 and 4pm. We can show you the outside of the room before this week, but it will still be used solely by Stepping Stones nursery until August. We will likely update our social media platforms and website with photos of the room when it has finished being set up.

From September, children and staff currently attending Stepping Stones nursery will also be able to join Hythe Bay Nursery in this room. We will still call this room Safari room, but we may also refer to it informally as Stepping Stones.

If you have any questions, suggestions or comments, please let us know, either in person, via phonecall or by email. Our contact details are listed at the bottom of this letter. Thank you.

Best regards,

Hythe Bay Nursery leadership team

Vicki – Nursery Manager
Radka – Deputy Manager
Amy – Safari (term-time) room leader
Shane – SENCO and Farm room leader
Danielle – Garden room leader
